👤 Profile

I am a dedicated computer science student at FEU Institute of Technology, set to graduate in 2025. I possess a strong foundation in both front-end and back-end development, with proficiency in languages such as HTML, CSS, JavaScript, React, Java, Python, PHP, and C++. My experience extends to Android development using Java. My thesis, IntelliWatch: Advanced Fall Detection and Analysis System with Pose Estimation for Realtime Alerts, focuses on detecting and analyzing falls, sending real-time notifications to a set user for prompt action. Additionally, I consulted on Elixir: A Personalized Color Palette Analyzer using Image Processing. I am passionate about technology and eager to apply my skills to challenging projects that foster innovation and continuous learning.
